Descripción	<p>The Sesqui-Centennial International Exposition of 1926 was a world's fair in Philadelphia, Pennsylvania, to celebrate the 150th anniversary of the signing of the United States Declaration of Independence, and the 50th anniversary of the 1876 Centennial Exposition...Organizers constructed an 80-foot replica of the Exposition's symbol, the Liberty Bell, covered in 26,000 light bulbs, at the gateway to the festival. Sesqui-Centennial Stadium (later known as Philadelphia Municipal Stadium and, after 1964, John F. Kennedy Stadium) was built in conjunction with the fair. Also on display at the exposition was the Curtis Organ, still one of the largest pipe organs in the world. In 1926 the first bridge (later renamed Benjamin Franklin Bridge) spanning the Delaware River between center city Philadelphia and Camden, New Jersey, was built in anticipation of the attending crowds. WIKIPEDIA (07-12-2015)</p>
