Dear friends ringers,

this year the bell-ringers of Arrone Group with the support of the National Federation of Musicians of Bells promotes the initiative to December 10 the International Day for Human Rights, "We play the Bell Towers of Europe in support of Human Rights."

Given the increasing success of the previous editions, when steeples from northern to southern Italy, Switzerland and England have played at the same time, we hope and we are sure that even for this positive trend to continue next year with an even number of the faithful. This year, then, we also need to play for the bell towers that causes the recent earthquake in Marche and Umbria can not participate and indeed we would like that while we play that night, rivolgessimo together a thought and a hope for a speedy revival in areas affected by the earthquake.

With this letter we want to renew the invitation to join us this year and perhaps to spread the message to other bell towers in all ways, web, telephone, etc ... electrified steeples are also accepted, also invite you to attend all parish priests and the dioceses.

The commitment provides for an execution (played to the nines or any favorite thing) to be made on the evening of December 10,

2016 at 20:00 of the period of ten minutes. The aim is to disseminate and support the value of human rights through the harmonies of the Sacred Bronzes.

For more information see: www.campanariarrone.it

Participants are requested to confirm their membership with an email to: info@campanariarrone.it or by telephone on 339 7270451.

We invite you to inform the membership.

As you can see this year we asked for institutional support, we believe that for humanitarian purposes must be only the actual participation of people, motivated and heartfelt. We believe that improvements in companies are carried out thanks to the men who together share a purpose pursuing it with dedication, dignity and seriousness. This wants to be the strength of our invitation and the message that we intend to disclose.
