Descripció	<p>There is still a living story about the bell that can be rung in the Church of the Assumption of Mary on Bled Island: “A young widow lived at Bled Castle. She gathered all her silver and gold and had a bell forged to be donated to the Mother of God on the Lake in memory of her late husband. During the transport to the island, a storm raged and the boat with the bell and the boatmen sank into the lake depths. The widow withdrew to a Rome convent in grief. After her death, the Pope sent to Bled Island another bell that people have loved to ring ever since, turning to the Mother of God on the Lake with their wishes and requests for help.”</p> <p>The ringing of the bell of desires is the voice of the soul, echoing in the sky above the lake. When you ring Mary's little bell, you will recommend yourself to the Mother of God, the Queen of Heaven. https://www.blejskiotok.si/ (19-11-2023)</p>
