<b>Description</b>	<p>The Tower of Voices serves as both a visual and audible reminder of the heroism of the forty passengers and crew of United Flight 93. On September 09, 2018 Flight 93 National Memorial will host a dedication event to complete the final phase of construction and complete the permanent memorial.</p> <p>The tower is conceived as a monumental, ninety-three feet tall musical instrument holding forty wind chimes, representing the forty passengers and crew members. It is intended to be a landmark feature near the memorial entrance, visible from US Route 30/Lincoln Highway. The Tower of Voices will provide a living memorial in sound to remember the forty through their ongoing voices.</p>
